

# Electrochem Semiannual Publication Report 2021

## 1. Publication

We have published 25 papers in the past six months. The median publication time (MPT) is 41.5 days, and the rejection rate is 25%. Below please find the details.

<https://www.mdpi.com/2673-3293/2>

## 2. Views and Rankings

*Electrochem* has got 27,000 views in the past six months of 2021. In addition, more than 20 papers have been cited at least once. For more details, please see:

<https://www.mdpi.com/journal/electrochem/stats>

### Cited articles (Top Ten) in 2020

Number	Title	Citation
1	Experimental, Monte Carlo and Molecular Dynamic Study on Corrosion Inhibition of Mild Steel by Pyridine Derivatives in Aqueous Perchloric Acid	12
2	Spinel to Rock-Salt Transformation in High Entropy Oxides with Li Incorporation	10
3	Lithium-Sulfur Batteries: Advances and Trends	8
4	Progress and Opportunities for Exsolution in Electrochemistry	8
5	Metal-Free Carbon-Based Supercapacitors—A Comprehensive Review	4
6	Review of the Design of Current Collectors for Improving the Battery Performance in Lithium-Ion and Post-Lithium-Ion Batteries	4
7	Non-Precious Metal Graphene-Based Catalysts for Hydrogen Evolution Reaction	3
8	Designing of Nanomaterials-Based Enzymatic Biosensors: Synthesis, Properties, and Applications	2
9	Molybdenum-Suboxide Thin Films as Anode Layers in Planar Lithium Microbatteries	2
10	Electric Field-Dependence of Double Layer Capacitances by Current-Controlled Charge-Discharge Steps	2

## 3. Special Issues

There are 13 Special Issues are open for submissions, please see:

[https://www.mdpi.com/journal/electrochem/special\\_issues](https://www.mdpi.com/journal/electrochem/special_issues)

If you are interested in contributing or have any other hot special issue topics or potential Guest Editors in mind, please feel free to recommend to us.

#### **4. Acknowledgments and Contribution Plan for the Second Half of the Year**

In the first half of 2021, we held the anniversary of /Electrochem/ and received many contributions from outstanding scholars. Thank you very much for your support.

In the second half of the year, we welcome those scholars who did not have time to attend the anniversary to continue to contribute to /Electrochem, and we also welcome your colleagues and acquaintances to contribute to us.

An early bird discount of CHF 300-900 will be offered if the paper is submitted within the first week of each month. The discount will end on 31 December 2021. We also provide free papers every month. Please contact us in advance if you want to apply for this opportunity ([electrochem@mdpi.com](mailto:electrochem@mdpi.com)).

We appreciate that you could spread the preferential policies of /Electrochem/ in the second half of the year. We will continue to publish good papers to make /Electrochem/ more successful.
